DATALLEGRO JOINS INFORMATICA ALLIANCE PROGRAM

*DATALlegro Data Warehouse Appliance to Interoperate with Informatica
Data Integration Platform*

Aliso Viejo, CA – February 16, 2005 – DATALlegro, supplier of data warehouse appliances that lead the industry in price and performance, today announced it has joined Informatica Corporation’s alliance program. Through the new partnership, joint customers will benefit from seamless interoperability between DATALlegro’s data warehouse appliances and Informatica’s data integration platform.

Informatica offers data integration products that allow companies to access, integrate, migrate and consolidate enterprise data across systems, processes and people to reduce complexity, ensure consistency and empower the business. DATALlegro’s data warehouse appliances enable companies to store and query very large amounts of data at an affordable price and with high performance. With seamless interoperability, Informatica’s PowerCenter platform can feed data directly into DATALlegro’s data warehouse appliances, where the data can be quickly queried in order to gain insight into the business.

“We see our relationship with Informatica as a real benefit for many of our customers,” said **Stuart Frost**, CEO of **DATALlegro**. “The product integration as well as the joint selling and marketing of both our products will make it easier for companies to buy a best-of-breed data integration solution.”

“We are pleased to have DATALlegro in our Alliance Program,” said **Michael Pickett**, Vice President of Global Alliances at **Informatica**. “We look forward to providing our joint customers the benefits of the PowerCenter data integration platform with DATALlegro’s affordable, high performance data warehouse appliances.”
